SELECTED RESULTS FROM THE LABORATORY TEST (GRADED 1 TO 10 WHERE 10 IS BEST)

Wheel durability (pulled over minor obstacles 50 km)		9	8	8	10	8	8	6	6	4
Durability telescopic handle (pulled over minor obstacles 50 km)		10	10	10	4 (broke after 48 km) *	10	10	10	1 (broke after 29 km)	2 (broke after 35 km)
Durability of side handles and shell (1,000 lifts and drops with 25 kg)		10	10	10	8	10	6	10	10	10
Drop resistance (bag dropped 3,000 times from 0.5 m with 25 kg)		10	10	10	10	10	10	10	10	10
Shock resistance (drop of 5 kg weight from 2 m onto one corner)		8	6	8	8	8	8	8	8	4
Ergonomics when driving on four wheels		8	8	8	10	8	8	8	8	8

TEST RESULTS GRADED 1 TO 10 WHERE 10 IS BEST (WEIGHT IN TOTAL GRADE WITHING BRACKETS)

Endurance wheels, telescopic handle & side handle	40 %	9,6	9,2	9,2	7,2	9,2	8,4	8,4	4,8	4,4
Impact resistance of the shell & wheels	30 %	9,0	8,0	9,0	9,0	9,0	9,0	9,0	9,0	7,0
Ergonomics and handling	20 %	8,3	8,5	8,4	10,0	7,9	8,3	8,2	8,4	8,6
Waterproof	10 %	4,0	7,0	4,0	8,0	4,0	6,0	4,0	4,0	4,0

TOTAL GRADE		8,6	8,5	8,5	8,4	8,4	8,3	8,1	6,7	6,0
Comment		Very durable and easy to drive, but a slightly heavier bag. High ground clearance. Not waterproof. Expandable.	Durable wheels and handles but less shock-resistant. Easy to drive and handle. High ground clearance. Few positions on telescopic handle. Almost waterproof. Expandable.	Durable and hard-wearing. Easy to drive and handle. Not waterproof.	Very easy to drive and handle. Shock-proof and durable wheels and shell, but the telescopic handle broke after 48 km. The handle has many positions. Almost waterproof. Weighs the least.	Durable and hard-wearing. Easy to carry and handle but a slightly heavier bag. Difficult zipper. Few positions on telescopic handle. Not waterproof.	Durable wheels and telescopic handle. Minor damage to the lining (inside) after side lift. Easy to drive and handle but low ground clearance. Some water resistance. Expandable.	Durable telescopic handle and resistant to drops and impacts. Less durable wheel mounts. Easy to drive and handle. Spacious but weighs the most. Not waterproof.	Withstands impacts and lifting but less durable wheel mounts. The telescopic handle broke after 29 km. Holds the least. Few positions on the telescopic handle. Not waterproof.	Broken wheel mounts. Telescopic handle broke after 35 km. Less shock resistant. Easy to ride and handle. Light weight. Not waterproof.

*) Samsonite performs well in the test but is disqualified from Testfakta Verified due to breakage of the telescopic handle.
